

## HAVE NOT THE CASH

To Deport Unregistered Chinese From the Country.

## CLEVELAND IS DISAPPOINTED

He Thought That the Federal Supreme Court Would Declare the Geary Law Unconstitutional.

WASHINGTON, May 16.—At the cabinet meeting today, with a full attendance, the Chinese question, as complicated by yesterday's decision of the supreme court, was discussed from every point of view, and it is understood that the conclusion reached was that the law could not be enforced for the reason that there was no money available for that purpose. The only remedy an appropriation of \$100,000. Secretary Carlisle showed that not more than \$35,000 of that sum remained, with some bills still uncollected to be acted upon. It was estimated that it would cost to deport all the Chinese now in the country, more than \$100,000. This statement exhibited what one of the members of the cabinet called the utter inability of the government to give any effect to the law without further action by congress. Under the circumstances it was understood that nothing could be done and it is said there is little if any probability of the federal government making any immediate effort to put the law into effect. One member of the cabinet, who holds a high place and is looked upon as a man of force and strength of character, made the broad assertion after the session was over that the law was nothing short of a political scheme enacted for political effect and he said in fact something about "demagoguery," and he intimated that there had been a general hope among his associates that the court would have held it to be unconstitutional.

It is assumed that in the ordinary course of diplomatic usage a copy of the decision of the supreme court, as soon as the majority members of the court have determined upon its exact phraseology, will be transmitted to the Chinese minister to be by him forwarded to his government. This will necessarily involve considerable delay, and congress will probably be again in session before return can be made to this communication.

## HER PRIDE INTACT.

The Infanta Can Come Assured of Receiving Due Attention.

WASHINGTON, May 16.—The message of Secretary Gresham to Minister Snowden, at Madrid, Sunday night, informing him of the conclusions reached by the administration upon the matter of the reception and entertainment of the Infanta Isabella, which was at once conveyed to the Spanish minister of foreign affairs, was apparently satisfactory to the government of Spain, inasmuch as the captain general of Cuba received instructions yesterday to have the program governing the Infanta's movements, as originally prepared, carried out in the department of her highness and suite from Havana for New York. The duke of Tamames, the court chamberlain, is a member of the suit attached to the Infanta and he will doubtless represent the Spanish princess in all relations with Commander Dana. The representative of this government in carrying out the program arranged for the entertainment of the party. Minister Snowden was directed to advise the Spanish government that all courtesy and consideration due to the rank and station of the princess could be observed by the government of the United States. This will be seen does not definitely settle the mooted question whether or not President Cleveland will call upon the princess at her hotel after she has paid her respects to the chief executive at the White house. The Infanta is expected to arrive in New York Friday morning, May 19, and come direct to Washington after leaving the ship. The program for her stay in this city is a closed dinner to the Infanta and party by President and Mrs. Cleveland at the White house.

## SNAP FOR THE SERGEANT.

Territorial Inspection With All the Comforts of Home.

WASHINGTON, May 16.—The territorial inspection committee of the senate will meet in Chicago on June 10, and immediately start upon its extended western tour. It will finish with Utah, Arizona, New Mexico and Oklahoma, before the committee returns to New York. The weather will be too hot for anybody, but probably not so hot as a bad summer outing and with of course, nothing at all of the junket in it. The party will be accompanied by Charles B. Reed, assistant sergeant at arms of the senate. He is now for Chicago on June 10 to prepare for their coming.

The committee is composed of Senators Fowler of West Virginia, Hill of New York and Platt of Connecticut. The private or will contain all the modern inconspicuous and discomforts of home, including sanitary, electric, gas, telephone, whiskey, beer, etc., and a laundry. Mr. Fowler is a tall, slender, Mr. Platt is a stout, and Mr. Hill never drank a drop of any thing stronger than coffee in his life. Mr. Reed is something of a bon vivant.

## SHADOWS OF COMING EVENTS.

Washington Glimpses Ponder Over the Feasibility of Naomi's Joining Earth.

WASHINGTON, May 16.—The society columns of the Evening Star, which is edited by a woman, has this prediction that Baby Ruth of the White House may soon be joined by Naomi. "President and Mrs. Cleveland moved out to their country home on Saturday. The house has been ready for some time, and Mrs. Cleveland went out early in the afternoon and later in the day was joined by the president. The house is furnished with the belongings of the New York home, until last winter occupied by Mr. and Mrs. Cleveland, and it presents an attractive appearance. A secret, which has been whispered around since time and about which nearly all members of the president's household do not care to talk, is now no longer a secret, as it has been given considerable publicity. That is that the members of the family are looking forward to an interesting event to occur.

## IDEAS OF THE WOMEN

Were Fully Ventilated at Yesterday's Congresses.

## FIFTEEN OF THEM AT ONCE

Social Evolution, Politics Hygiene, Beauty and Other Weighty Themes Were Discussed by Women.

CHICAGO, May 16.—Half a dozen rival meetings were on the menu card of the women's congress today. Under the wide roof of the art palace they all found suitable quarters. Thousands of women attended the different sections of the congress, and the devotees of almost every special line of work found a program prepared to their taste. Wrapped in heavy cloaks, the delegates seemed prepared to encounter Chicago's changeable weather. Most of the women preferred to visit in the warm corridors and reception room on the main floor.

## ALLEGED CROOKEDNESS.

Irregularities Said to Exist in the Patent Office.

WASHINGTON, May 16.—Secretary Hoke Smith recently ordered an investigation of the patent office upon receipt of information charging W. E. Simonds, the late commissioner, with permitting certain valuable papers in the office to be copied by outside parties. The investigation, which is now in progress, has shown that Mr. Simonds cannot easily be plain. The commissioner wrote a treatise on the laws of patents while in office and the work, it is alleged, was copied by the government clerks during office hours.

## FAVORS AN INCOME TAX.

President Cleveland Seems to Have a Leaning That Way.

WASHINGTON, May 16.—It is understood that the entire cabinet will urge upon Mr. Cleveland the advisability of making a strong recommendation in his first annual message in favor of an income tax in addition to the four other measures which the democrat leaders desire to go through the next congress—the tariff, the income tax, the repeal of the election law and the repeal of the Sherman act and the bank tax. The income tax was the only thing, it is said, that Mr. Cleveland hesitated about, though he was inclined to favor it. It is believed now that on the advice of his cabinet he will take a decided position in favor of it.

## Chief Justice Baker.

WASHINGTON, May 16.—The president today made the following appointments: A. C. Baker, Arizona, chief justice of the supreme court of the territory of Arizona; Edward L. Hall, New Mexico, marshal of the United States for the territory of New Mexico; Benjamin F. Jones, New York, collector of the district of Alaska, vice Edwin F. Hatch, removed; W. H. Pugh, Ohio, commissioner of customs, vice S. V. Holliday, Pennsylvania, resigned; Robert M. Connor, Tennessee, deputy first auditor of the treasury, vice Alexander R. McMillan, District of Columbia, resigned.

## Demand a Court of Inquiry.

WASHINGTON, May 16.—Captain Higginson of the United States steamship Atlanta, anticipating that Secretary Herbert would not be satisfied with his actions and delay in getting the steamer Atlanta started for Nicaragua when ordered, has written a letter to the secretary requesting a court of inquiry. Secretary Herbert has decided to grant the request, and a court will be ordered as soon as Captain Higginson returns to the United States. The court, it is said, will be instructed to inquire into many yard methods generally.

## Pallister's Body Found.

SING SING, N. Y., May 16.—A body was found in the Hudson river, off Sing Sing this morning, and has been identified by State Detective Jackson and Principal Keeper Connaughton of the prison as that of Pallister, the murderer of Policeman Kane. The body was much decomposed.

When Pallister's body was found with a bullet hole in the head it was supposed that Pallister had murdered him for the money he had upon his person, but the discovery of Pallister's body reduces the affair once more to an inexplicable mystery.

## Fought It Out on Paper.

NEW YORK, May 16.—The Carmack Collieries of West Virginia, which today induced the belligerent editors to select friends to prepare terms of peace. Carmack selected M. C. Galloway and Josiah Patterson, Collier chose Gen. George W. Gordon and J. H. Martin. The four picked out A. D. Gayne and the five prepared a settlement to which both sides would be dualists agreed. This settlement provides that the past shall be forgotten and the harsh language retracted, and that hereafter the editors shall abstain from making faces at each other.

## Small Bank Failure.

BLOOMINGTON, Ill., May 16.—The Exchange bank of Normal, a suburb of this city, closed its doors today. It was a private banking institution, conducted by W. H. Schumann, who was doing business without adequate capital. The crisis has been expected for some time. The depositors average \$2,000, and the capital stock is supposed to be \$25,000.

## Found in a Cistern.

OKLAHOMA, May 16.—Jacob Baser of No. 1110 Main street reported at police headquarters this morning that his wife had run away from home last night. He stated that she had acted strangely of late and he was of the opinion that she was demented. This afternoon she was found dead in the cistern adjoining the house.

## Noted Burglars Escape.

CINCINNATI, May 16.—Billy Fields, the inventor of the celebrated Fields' money for bank safe cracking, and Billy Nelson, two noted burglars, escaped from the Jeffersonville penitentiary by tunneling under the walls.

## Frank Almy Hanged.

CINCINNATI, N. H., May 16.—George H. Abbott, alias Frank L. Almy, was hanged today for the brutal murder at Haverhill, New Hampshire, on July 17, 1892, of Charles Warren.

## WILL FLOOD A STATE

The Grand Lake Crevasse Means Appalling Damage.

## LOUISIANA TO BE INUNDED

West Memphis and Hopefield Are Already Under Water and the River Is Rising.

NEW ORLEANS, May 16.—Grand Lake levee broke last night as a result of the heavy storm. It is situated in Arkansas just above the Louisiana state line. The extent of the break is not yet known. The water from it will reach Bayou Macon into which the water from the previous crevasse are flowing. The damage from this last break is appalling. All of the northern part of Louisiana will be flooded, and it is also feared that the water will cause great damage in the central portion of the state, as the Red river, in which it will flow, is rising rapidly and will soon be out of its banks. Gov. Murphy J. Foster of Louisiana, accompanied by several railroad officials, passed through Greenville, Miss., tonight, on their way to the flooded country for the purpose of aiding the sufferers. Great destruction prevails, and relief expeditions are being organized to rescue those who have been hemmed in by the water. The Grand Lake crevasse was 300 feet wide and 25 deep at 6 o'clock tonight. The river at West Memphis and Hopefield, Ark., are under water.

## SEWER BUILDING STOPS.

Teamsters and Shovelers Attempt at Little Coercion at Indianapolis.

INDIANAPOLIS, May 16.—All employees of public contractors on streets and sewer building were called out on strike today by the Teamsters and Shovelers' union, involving about 3,000 men. The union demands an eight-hour day at \$1.75 per day, while the contractors offer \$1.75 for a ten-hour day or \$1.50 for nine hours. A noisy mob varying in numbers from 1,000 to 2,000 men visited the various works at intervals during the day, seeking to induce the few remaining at work to quit, to frighten the teams, or to in other ways interfere with the work. The police kept them moving and there were no open collisions. Serious trouble is looked for when the contractors begin to employ men, as they threaten to do.

## PREVENTED A WRECK.

A Farmer Discovered an Obstruction in Time to Save the Train.

MUNICE, Ind., May 16.—The southwestern limited express train, No. 17, on the Big Four road was saved from being wrecked near Daleville, west of Munice, today by the timely discovery of a farmer. Willie Thomas and Fred Jenkins, two youngsters aged each 14 years, ran away from home at Benwood, Shelby county, last week. Last evening they walked to Yorktown from Munice, and there boarded the early morning passenger train for Anderson. The lads, through ignorance, took the front end of the baggage car for the engine, and tried to open the door, and the messenger thought they were a band of robbers. The conductor was called, the train stopped, and when the lads were discovered they were kicked off without any ceremony. They had money and wanted to go to their home. The boys then walked to Daleville. They were mad for the treatment they received and attempted to get even by wedging twelve or fifteen links and pins in a frog at a switch track. The obstructions were on a sharp curve and were detected just in time to prevent a terrible catastrophe. They were easily found and are in jail here, having confessed.

## FIFTY HOOSIERS IN A FIGHT.

Met at a Dance and Turned the Festivities Into a Furore.

BRAZIL, Ind., May 16.—Bad blood between the young men of Benwood and Cardonia, small mining towns north of here, which has existed for two years, culminated in a terrible fight Saturday night, in which over fifty persons took a hand. A dance was given at Shearer's hall, Benwood, and while all was dancing the merriment was squelched by the throwing of chairs in one corner of the room. In less than fifteen minutes all the women were forced from the room and a general fight occurred. Revolvers, razors and chairs were used. The police were called, but were unable to quell the altercation until reinforcements could be secured. By this time over a dozen persons were injured, to what extent cannot yet be ascertained. All guilty parties will be promptly arrested. Another dance will be given at Cardonia next Saturday evening and another altercation is looked for, which will probably end more seriously than the above one, as the participants will be armed for the conflict.

## WOMAN'S FAILURE.

He Makes a General Assignment of All His Property.

NEW YORK, May 16.—Erastus Winan today made a general assignment to David Bennett King. Mr. Winan would not make any formal statement. He merely said that the assignment was without preference. Mr. Winan has been in straightened financial circumstances for some time past. Several weeks ago Mr. Winan made over a portion of his property, including his Staten Island real estate, to trustees for the benefit of creditors. He hoped to be able to pull through his difficulties without the necessity of making a general assignment. The bad condition of the money market and the disturbed condition of the financial situation in general, however, has prevented this and for some days his assignment has been expected.

## AMERICA'S FOREMOST NEGRO.

Mr. Mary, Aristocratic, Honored, Wealthy and Yet a Slave.

NEW ORLEANS, May 15.—Alexander Austine Mary, who died in this city yesterday by suicide, probably occupied a higher position in the community than any other colored man in the United States. He was distinctly an aristocrat of French descent on the father's side, was always a wealthy man, inheriting a fortune, and was a slaveholder himself before the war. He received a classical education in France and spent

## Southwestern Baptists Affirmed.

NASHVILLE, Tenn., May 16.—The Southern Baptist convention held its last session this afternoon and at 5 o'clock adjourned sine die. The delegates are now rapidly leaving the city for home.

## FORENSIC.

Tonight's sessions began at 7:45 o'clock in the palace. In the hall of Columbus Mrs. Dr. Mary Putnam Jacobi of New York spoke on "Woman in Science." Augusta Cooper Bristol of New Jersey on "Woman the New Factor in Industrial Economics." In hall of Washington, Julia Ward Howe of Massachusetts and Kate Tupper Galpin of California spoke.

Hall No. 7 was devoted to the Order of the Eastern Star. Eight papers were read, all relating to the order and its Free Masonry connection, the most important being that of Mrs. Mary A. Flint of California, on "The Value of the Eastern Star as a Factor in Giving Women a Knowledge of Legislative Matters." Resolutions were adopted among them. Societies and the National American Woman Suffrage association. Hall 8 contained the inter national congress of Young Women's Christian associations, addresses being delivered by Mrs. Jane Hancock Robinson, Detroit, and Mrs. William Boyd, Kansas City.

## NOT PAYING EXPENSES.

The World's Fair is a Financial Failure Thus Far.

CHICAGO, May 16.—The weather is becoming a serious matter to thousands of people financially and otherwise interested in the Columbian exposition. Since the time usually set for the breaking of winter's back bone there have not been a dozen especially pleasant days for the fair. The elements have put stumbling blocks in the way of its completion. For the last three months, and since the opening three have been only two or three warm, pleasant days such as visitors coming from all parts of the world expect in order to enjoy their outdoor viewing of the exposition. This is the sixteenth day, and a more bleak, disagreeable dose of weather it would be hard to find any where in this country at this season of the year. The attendance this morning was higher than it has been for many days, and the exposition people are discouraged accordingly. The average paid attendance so far has not been much over 17,000 daily, which is far below the number necessary to meet the operating expenses of the exposition, to say nothing of the millions of half paid labor needed to keep the exhibitors and stockholders of the great enterprise. Thousands of strangers are in the city waiting for fine weather to come to Jackson park, but they positively refuse to shiver on the lake shore even for the sake of seeing the fair. The restaurant owners are suffering more than other concessionaires these days, not only on account of their own greed in regard to prices causing most visitors to bring their refreshments, but because the patronage has been further cut down by the inclement weather. Outdoor work in the Midway Plaisance and other parts of the exposition is also being retarded by the cold.

## WILL OPEN SUNDAY.

The Local Commission Will Refund the Government Money.

CHICAGO, May 16.—The directors of the World's Columbian Exposition decided today to abrogate their contract with the Chicago and North Western railway to close the fair on Sunday in consideration of an appropriation of \$250,000. The money will be returned to the government, and hereafter the fair will be opened Sundays. This course was decided upon at a special meeting of the directors this afternoon. Most of the directors were dissatisfied with the plan adopted at their last meeting, by which it was proposed to open the grounds Sundays, while closing all buildings containing exhibits. Today's action was practically unanimous, but two directors out of thirty six voting against the proposition. By the terms of the resolution adopted today the machinery will be closed down on Sunday, but in every other respect the fair will be open in all departments the same as on secular days. But \$124,120 of the appropriation originally made by congress has been authorized to the Chicago and North Western, and this amount is to be returned to the national treasury after the debts of the exposition have been paid. A rule embodying these points will be submitted to the national commission for approval. What action this body will take is problematical as a mere working question of the moment is at present in the city. In any event it is the evident purpose of the local directors to open the fair on Sunday, even at the expense of a rupture with the national body.

## PRESBYTERIAN ASSEMBLY.

The One Hundred and Fifth Session Opened Yesterday at Washington.

WASHINGTON, May 16.—Commissioners to the one hundred and fifth general assembly of the Presbyterian church of the United States began to reach Washington today. The bulk of the members, however, will not arrive until tomorrow night and Thursday morning. An interesting incident of the first business session of the assembly was the presentation by the new moderator of a gavel, the gift of W. B. Givley and wife of Washington. The gavel is cherry from Mount Vernon. It also contains a small piece of the frigate which was commanded by Commodore Hull during the war of 1812, a chip from the eagle on the Washington monument and a small piece of the pew once occupied by President Lincoln in the New York Avenue church. At the opening meeting of the Ladies' Missionary society in the church of the Covenant, Friday, the church will be decorated with flowers and introduced by Mrs. Cleveland.

## Smallpox Suspects.

NEW YORK, May 16.—More than 1,000 persons, passengers and officers of the steamships Germania, Lahn and Alaska, all of whom have been exposed to smallpox, have been placed in quarantine on Hoffman and Swanbourne islands, where they will be obliged to remain under observation for fourteen days. One death occurred on the Alaska during passage, and one case has developed since landing. All the suspects have been vaccinated.

## Sanitary Baptists Affirmed.

NASHVILLE, Tenn., May 16.—The Southern Baptist convention held its last session this afternoon and at 5 o'clock adjourned sine die. The delegates are now rapidly leaving the city for home.

## Sanitary Baptists Affirmed.

NASHVILLE, Tenn., May 16.—The Southern Baptist convention held its last session this afternoon and at 5 o'clock adjourned sine die. The delegates are now rapidly leaving the city for home.

## AFTER A HOT DEBATE

Doran's Inheritance Tax Bill Passes the Senate

## CHECK PUT ON INSURANCE

The Senators Put in a Very Busy Day, Passing Many Bills of Minor Importance.

LANSING, Mich., May 16.—In the senate this morning a protest, signed by many members of the First unitarian church of Kalamazoo, against the capital punishment bill, was read. Senator Doran's inheritance tax bill passed the senate this afternoon, receiving twenty four votes. It was considered in committee of the whole this morning and Mr. Doran read a long argument in its favor. Mr. McLaughlin started the ball rolling by moving that all after the enacting clause be stricken from the bill. Senator Chapp denominated the principle of the bill as unconstitutional, and asked how a farmer would feel when he learned that after paying taxes all his life his property was to be taxed after his death. Mr. McLaughlin said he could not regard the provisions of the bill in any other light than confiscation. He said its principle was that a man had cheated the state during his life and it was like striking a man after he was down. McLaughlin's motion to kill the bill did not carry and the committee agreed to the bill. This afternoon it was passed and goes to the house, where it will probably meet with considerable opposition.

## HUNS AND OFFICERS BATTLE.

Desperate Fight Near a Church at the Dawson Creek Works.

UNIONTOWN, Pa., May 16.—A pitched battle took place at W. J. Rainey's coke works at Dawson last evening between 100 drunken Hungarians and the borough constable and fourteen deputies. Several of the Hungarians were beaten into unconsciousness and left on the ground. For dead, while Deputy Constable Gallatin, John Beatty, William Beach and Harry Raymond were seriously and perhaps fatally hurt. The Hungarians were carrying on a disgraceful dance in sight of the church. A number of citizens interfered, but were driven back with clubs and stones. Constable Fisher then deputized fourteen men and attempted the arrest of the leaders. Over 100 Huns set upon them with clubs and stones. Each officer was singled out by more than a dozen Hungarians and beaten with stones and clubs, and the officers were soon driven from the ground. The Huns kept up the dance during the night in defiance of the officers. A posse of forty men has been organized and armed to make the arrests tonight.

## JOHN L. ARRESTED AGAIN.

This Time for Assaulting a One-Armed Lawyer.

BANGOR, Me., May 16.—John L. Sullivan was arrested at the depot in this city upon his arrival on the Boston train. It is more than likely that the ex-champion will have to cancel some of his theatrical dates, for a term in prison stares him in the face. A warrant for his arrest was issued by the police judge in Bangor this morning, charging him with assault and battery upon Max L. Lizotte, a Bangor lawyer, last night on the Boston train. Lizotte has only one hand, and he was kicked across the car by Sullivan and other badly used up. The assault was wholly unprovoked on Lizotte's part. The offense means imprisonment if Sullivan is convicted.

## JUDICIAL DON JUAN.

Some Racy Testimony in the Dubose Impeachment Trial.

NASHVILLE, Tenn., May 16.—There was another woman witness in the Dubose impeachment case today. Mrs. Lady P. McBride of Memphis was examined at length as to the scene that is alleged to have occurred in Judge Dubose's office. According to Mrs. McBride the judge attempted familiarity and she indignantly left the office. He had sent for her and attempted to induce her to turn her property over to a trustee, threatening to release her husband, who was in jail for assault and battery, and of whom she was afraid. When she refused the judge attempted to hug her. Her husband was released by the judge. The other testimony was not of a sensational nature. The prosecution announced that all their testimony was in, and tomorrow the defense will begin to present its evidence.

## Sold to a Syndicate.

LAFAYETTE, Ind., May 16.—The E. K. Warren leather shoe factory at a syndicate (take that) today sold a syndicate of English capitalists. This is one of the largest concerns of the kind in the country, and is sold under contract to remain in its present location for three years, before it can be removed. The same syndicate has options on the thirty or other whips factories in Westfield, Mass., and the dozen more at Wellsville, O. They intend buying all the factories in the country and control the entire whip output.

## Sues His Mother-in-Law.

CLEVELAND, May 16.—Some time ago Mrs. Will P. Todd of this city obtained a divorce from her husband on the grounds of extreme cruelty. Today Todd filed a suit for \$100,000 damages against John P. Gray and Mrs. Francis Tipliff, the mother of Mrs. Todd, for alienating the affections of his wife.

## Shaving on Sunday Illegal.

KANSAS CITY, Mo., May 16.—Judge Gill, in the court of appeals today, handed down a decision sustaining the conviction of a barber for violation of the Sunday law, which provides that no work other than household offices or other work of necessity shall be performed on Sunday.

## Two Tramps Killed.

ZANESVILLE, Ohio, May 16.—An
